Acknowledgements

Center for Transformational Leadership (CTL) wishes to thank URAIA Trust and the Danish International Development Agency (DANIDA) for supporting the development of this Community Strategic Plan (CSP).

We appreciate the County Government of Nakuru's participation in developing this plan. Special thanks go to Hon. Antony Charles Kamau Kanyere, Nakuru East Ward Member of County Assembly (MCA), and Paul, Nakuru East Ward Administrator, for supporting the process and providing valuable input during community meetings.

We appreciate the CTL Team - Peter Rono, Nickson Mwarari, Paul Njuguna, John Kiruki, Margaret Gachanja, and Julia Kamau who worked tirelessly to support the community planning and compiling this report.

We also thank the 30 community members drawn from three sub-locations that make up Nakuru East Ward for volunteering their time to develop and draft this plan. Your effort in presenting the needs of the community and identifying areas that require action to ensure equitable development across the ward is appreciated. Special thanks to CTL's Nakuru East Ward Civic Educator Mrs. Sarah Kamunya for mobilizing and facilitating conversation during the CSP development process.

About CTL

Center for Transformational Leadership (CTL) is a local NGO based in Nakuru County and founded in 2008. The organization envisions a transformed society upholding values of good governance. Its mission is to strengthen the capacity of individuals, communities and organizations to effect positive transformation in the society.

CTL does this by implementing democracy, governance and leadership programs. Through the governance program, CTL conducts civic education to ensure citizens understand their constitutional rights and responsibilities. It also supports citizen formations to engage in public decision-making processes and monitor the delivery of essential services using participatory performance management tools like community scorecards, social audits, citizen report cards, community strategic plans and budget analysis.

This work enables citizens to provide duty bearers with constructive feedback for improved quality of services. In 2025, CTL used the CSP to identify the priorities of the community and come up with a development plan for Nakuru East Ward in Nakuru Town East Sub County. The Nakuru East Ward CSP is part of the social accountability work undertaken by CTL through the 'Encouraging Citizen Driven Accountability through Sustained Engagement (ENCASE)' project. The ENCASE project is supported by Uraia Trust and DANIDA under the 'Strengthening Public Accountability and Responsiveness in Kenya' (SPARKe) Programme.

This CSP was developed through a participatory process involving the community and the local duty bearers. This report presents findings from CTL's CSP work undertaken in Nakuru East Ward in Nakuru Town East Sub-County.

Forward

Since devolution took effect in Kenya in 2013, county governments have been conducting public forums to collect citizen views on county budgets and plans. Public participation is one of the underlying principles in the Kenyan Constitution. Through public participation, citizens can influence decisions on what matters most to them. However, meaningful public participation can only happen when citizens are well prepared.

Part of this preparation is about citizens meeting prior to the public forums to identify and prioritize development needs in their localities. It's also about citizens documenting the prioritized needs in a memorandum, ready for submission during public budget forums. While this has been happening in selected areas, the process is often rushed, leaving citizens with limited time to deliberate on their needs and prepare for participation. Citizens rarely have a chance to reflect on how equitable development within Wards has been or even hold conversations to determine their most pressing needs and identify what needs to be prioritized.

Additionally, mobilization of citizens to participate in budget fora is often rushed. This means that some locations within Wards are left out of the preparations and so are their needs. To improve the quality of citizen participation in critical decision making processes such as county planning and budgeting, citizens must be well organized. They must take ample time to reflect on the status of the Wards, evaluate past projects, assess development needs, and agree on annual priorities. Development of Community Strategic Plans (CSPs) accords them such opportunity.

The concept of CSPs is based on the fact that the government planning and budgeting cycles are predictable processes. CSPs allow citizens to engage in a '*strategic planning*' exercise for their Wards. During this exercise, citizens map development in their Ward, generalize their development needs, and consult widely to determine annual development priorities. Since the process involves development of a multi-year plan, citizens develop a long-term vision for development in their Ward. This allows them to take a more realistic approach toward the allocation of resources to ensure that their vision is gradually realized.

Additionally, citizens plan alongside their local leaders, including their Member of County Assembly (MCA) and their Ward Administrator. Participation of MCAs and Ward Administrators allows citizens to get the clarity they need about strategic projects that may be proposed by the leaders. On the other hand, local leaders get clarity on what developments are critical for citizens. As citizens leverage the power of public participation, we believe this strategic plan will improve their quality of participation and enable them to speak with one voice.

Executive Director
CTL

Word from Nakuru East Ward MCA

When we embraced the Constitution of Kenya 2010, we placed citizens at the heart of governance processes in our country. Article 174 of the Constitution outlines the objectives of devolution. Two of these objectives are directly linked to the community strategic planning process that CTL supported residents of Nakuru Town East Ward to undertake. These objectives are a) to promote democratic and accountable exercise of power, c) to give powers of self-governance to the people and enhance the participation of the people in the exercise of the powers of the State and in making decisions affecting them.

Being a participatory activity, the community strategic process allowed residents of Nakuru Town East Ward to assess the state of service delivery in their area, consult amongst themselves, and prioritize their development needs for the next five years. This process placed them at the drivers' seat and empowered them to make decisions on how development resources should be distributed in order to realize another object of devolution, f) to promote social and economic development and the provision of proximate, easily accessible services throughout Kenya.

This Community Strategic Plan (CSP) will go a long way in fostering meaningful public participation in Nakuru Town East by making deliberations during budget hearings objective. It also gives residents of this ward a long-term view of development for their Ward while clearly outlining annual priorities.

As their Ward Representative in the County Assembly, this CSP makes my representation, oversight, and legislation work easier by highlighting the priority needs of my people.

I appreciate the CTL team for the financial and technical support they provided to Nakuru Town East residents in crafting this CSP. I am also grateful to the Ward Administrators and all the Ward Residents who dedicated their time and effort to make the planning process a success. I am particularly appreciative of the planning team for presenting the views and needs of all citizens in the Ward to ensure equitable distribution of projects in our Ward.

*Hon. Antony Charles
Kamau Kanyere*
**Member of County Assembly
Nakuru East Ward**

Why Community Strategic Plan?

01 — Community Organizing

The Community Strategic Planning process is highly participatory and inclusive, giving voice to all citizen groups based on age, gender, and locations. Citizens work collaboratively to assess development needs, determine what to prioritize, and organize better for civic action.

02 — Equitable Development

Citizens map location and status of previous development projects across the Ward. The mapping exercise facilitates equity in distribution of projects in the Ward.

03 — Needs Assessment and Prioritization

Citizens assess development needs in their Ward. For each development need, they determine the level of priority and provide justification for the ranking.

04 — Meaningful Participation

The Community Strategic Planning process is highly consultative. It brings citizens and local leaders together. Members of County Assembly and Ward Administrators provide justifications for development projects they propose to citizens. Citizens develop realistic plans based on Ward development budget ceilings.

05 — Managing Expectations

A Community Strategic Plan helps citizens to prepare adequately for public participation. Through consultation and joint decision-making, citizens consolidate their voice and gain clarity on their development priorities year-on-year. This improves their quality of participation in governance processes.

Methodology

PHASE 01

Entry Meeting with MCA and Ward Administrator

This step involves holding introductory meetings with the MCA and the Ward Administrator in wards where civic education work has previously been conducted. The concept of community planning was introduced to local leaders and CTL got their buy-in to develop and implement the plan.

PHASE 02

Identification and sensitization of community representatives

30 participants were identified based on geographical locations, gender and age, community standing, and participation in civic matters. Participants were sensitized on the functions of the county and national government, the importance of public participation, tools and avenues of public participation, and the county budget-making process.

PHASE 03

Review of Ward Development Projects

Participants mapped development projects implemented in the ward and assessed the status and geographic distribution of those projects.

PHASE 04

Prioritization of Development Needs

Involved in identifying and prioritizing development needs in the Ward. Sitting according to their locations/villages, participants developed a list of all issues affecting them in the ward and used a pre-designed template to prioritize projects and interventions they wanted to be implemented over the next five years.

PHASE 04

Resource Planning

Participants cost the prioritized projects using previous allocations and identified sources of funds.

PHASE 05

Consolidation of Community Strategic Plan

Consolidate the projects by all the zones/ locations/sub-locations and villages into one plan. While consolidating the project, MCA's vision for the ward would be incorporated.

PHASE 06

Development of a Monitoring Plan

The community develops a monitoring plan together to track the implementation of the developed projects and interventions for the ward.

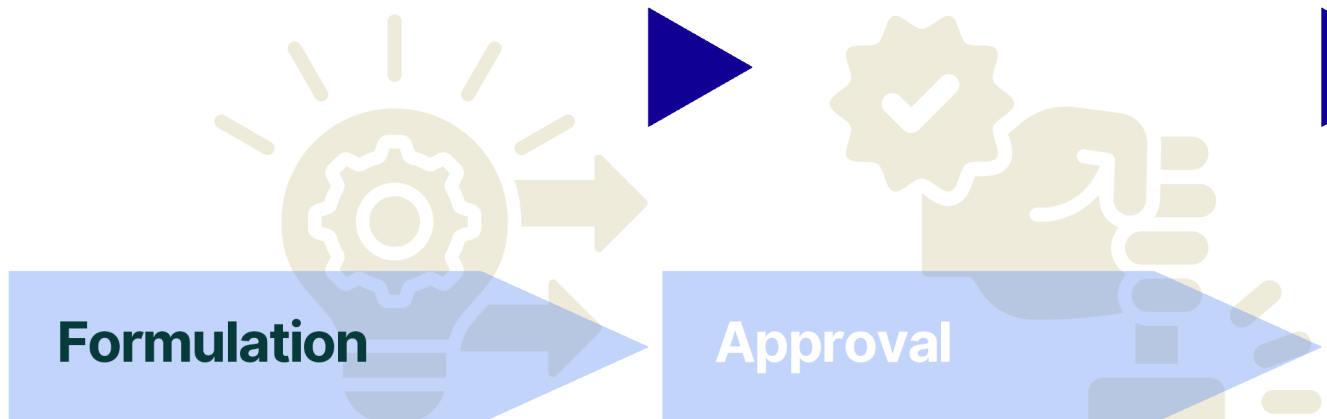

PHASE 07

Training of Community Representatives on Project Monitoring

Participants were trained on social accountability tools that could aid in monitoring the implementation of the development projects captured in the CSP.

The Budget Cycle and How

What happens

County government commences the budget development process.
County consults stakeholders and captures their views for consideration

Role of Community

- Watch out for public participation notices and inform others
- Prepare to participate - draft memorandums and develop a list of signatures to accompany the memorandums
- Consult with MCA and Ward Admin on development priorities
- Attend public participation forums
- Submit memorandum

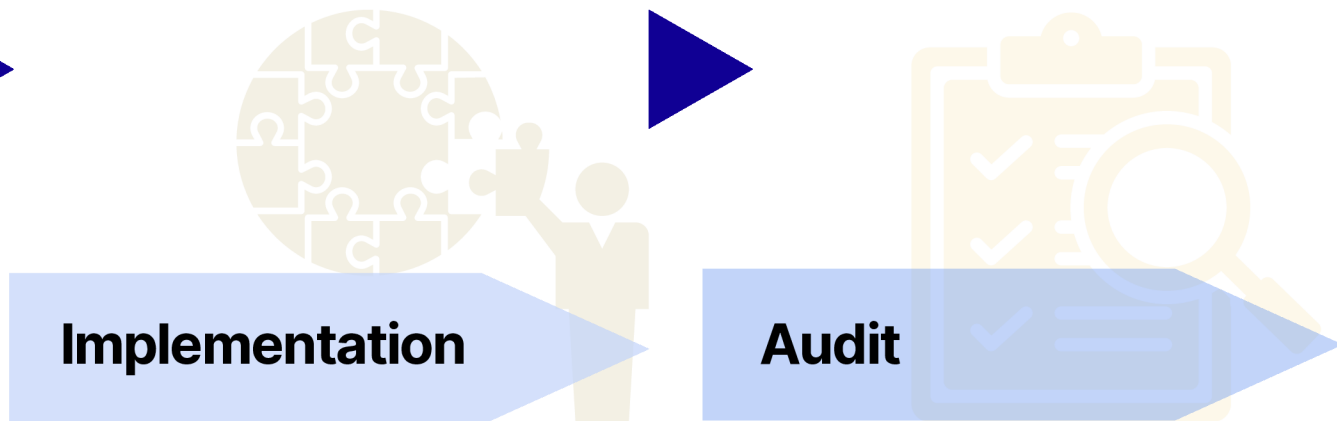

What happens

This process is spearheaded by the County assembly Budget and Appropriation committee which comprises MCAs and committee clerks. This committee collects stakeholders' views concerning the draft budget presented to the County assembly by the County executive - CEC Finance.
The County Assembly approves the budget with or without amendments.

Role of Community

- Watch out for public participation notices and inform others.
- Request for draft budget estimates with projects captured from the ward administrator or budget champions.
- Prepare a memorandum in line with the findings of the projects captured in the budget.
- Mobilize and attend the forum in large numbers to validate the projects captured.

Citizens Can Participate

What happens

The departments implement the approved budgets by the County Assembly. These include the undertaking of programmes, development projects, and provision of services.

Implementation is an ongoing process as it never stops.

Role of Community

- Request for approved budget estimates with projects for your area captured from the ward administrator or budget champions.
- Monitor implementation of the projects or join the project management committees.
- Consult the Ward Administrator or Area MCAs if the quality of work done by the contractor is poor.

What happens

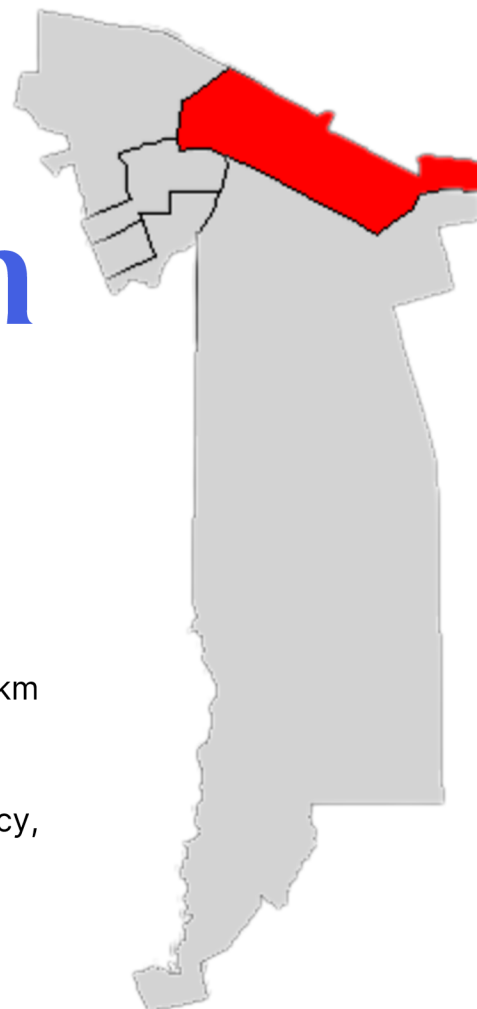

In this stage, a review of the implementation stage is done internally by the County treasury, and externally by the Auditor General.

The findings of the audit are tabled in parliament and are used by the MCAs and County Senator to conduct oversight.

Role of Community

- Use the report to monitor service delivery and provide feedback to the government.
- Consult the Area MCA on the findings of the Auditor General Report.

Overview of Nakuru Town East

Geographic location of the ward

- The ward is located East of Nakuru City, about 11km from Nakuru CBD.
- An area of 23 km²
- One of the wards in Nakuru Town East Constituency, and it is within the Nakuru City boundaries
- The ward borders L. Nakuru National Park to the West

Population

32,572

Number of Registered
Voters

Development Priorities

Location: Free Area

High Insecurity along Oloika Club/ Buffalo and Karanga Shimo Area

- Street lights are vandalised and stolen along Oloika Club and Buffalo due to the demand for scrap metal
- Street Lights are not Installed at Karanga Shimo

HIGH

Poverty especially in Murogi Area

- Poverty is caused by lack of employment in the informal settlement

HIGH

Incomplete and Uninstalled drainages at Home center area

- The rainwater floods at people's homes along the home center area

HIGH

Broken sewages and sewer lines at St. Augustine, Along the poshomill

- The sewer lines are placed close to the surface

MEDIUM

Few ECDE Classes

- The classes are insufficient to accommodate the population of the area

MEDIUM

Insufficient number of toilets at public schools

- Due to overpopulation in existing schools, the existing toilets are not able to serve the students

MEDIUM

Human Wildlife conflict

- There is no electrified fence at Lake Nakuru National park

HIGH

Incomplete Tarmacked Road along Poshomill and St. Augustine Church

- The tarmacked road is starting to deteriorate where it has ended
- The road is a frequently used

MEDIUM

Location: Muguga

Insufficient number of street lights

- The land area is large but the street lights are few and therefore increase cases of insecurity in the area

MEDIUM

Lack of proper drainage and sewer line

- Despite being an urban area, lack of sewer lines increase costs of construction and sanitation for citizens in the area
- During the rainy season, there is a lot of stagnant water on the roads which destroys the roads

HIGH

Poor roads

- This increases the cost of transportation in the area

HIGH

Lack of a secondary school in the area

- Students are forced to wake up very early and travel to schools that are far

MEDIUM

Lack of a market place and public toilet in the area

- Traders are forced to conduct their business along the main highway and therefore poses a threat to their lives

MEDIUM

Insecurity in the area

- This is caused by high unemployment levels in the area

MEDIUM

Lack of social hall in the area for the youth

- The youths are not able to find a common area to conduct their activities

HIGH

Insufficient number of primary schools in the area especially in the upperside

- The population has grown exponentially in the area and has caused overpopulation in the existing schools

HIGH

High unemployment levels

- This has been caused by lack of employment opportunities in the area

MEDIUM

Insufficient levels of water especially in Baraka and Neema

- This is partly caused by lack of enough water pipes to serve the area
- The existing water piping structure is too narrow to handle the water pressure and the number of homes that need to be served

MEDIUM

Year-on-Year Ward Development Priorities and Budget

2025/26 to 2027/28

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Financial Year 25/26				
Construction of a drainage system from King`s outreach church to the Lake Nakuru National Park fence	New	Free Area	County	1 million
Rehabilitation of sewer line along St. Augustine and Posho Mill Road	New	Free Area	County	2 million
Construction and equipping of one ECDE classroom at Lion Hill Primary School	New	Free Area	County	1.8 million
Construction of a 4-door Toilet at Madaraka Primary School for ECDE Children	New	Free Area	County	950,000
Construction of a 4-door Toilet at Lion Hill Primary School for ECDE Children	New	Free Area	County	950,000
Construction of a 4-door Toilet at Naka Primary School for ECDE Children	New	Free Area	County	950,000

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Grading, Murraming and culvert installation of the Barnabas to Mirugi Kariuki Primary School Road (2 Kms)	New	Muguga	County	2 million
Installation of two streetlights at Goshen estate	New	Muguga	County	800,000
Installation of electricity at Muguga Dispensary	New	Muguga	County	300,000
Repair of Borehole at Chief's Camp	New	Muguga	County	3 million
Construction and equipping of 1 ECDE class at Rhino Primary School	New	Mwariki B	County	2.5 million
Construction and equipping of a social hall at Mzee Wanyama	New	Mwariki B	County	9 million
Purchase of poultry for distribution	New	Mwariki B	County	3 million
Purchase of hatchery for use	New	Mwariki B	County	5 million
Grading, Murraming, Culverting and Gravelling of Kwa senior to Home Base Road (5 Km)	New	Mwariki B	County	5 Million
Grading, Murraming, Culverting and Gravelling of Akiba Destiny road to Gameline (2 Km)	New	Mwariki B	County	2 million
Grading, Murraming, Culverting and Gravelling of Imperial to Kware Gameline (2 Km)	New	Mwariki B	County	2 million
Grading, Murraming, Culverting and Gravelling of all feeder roads from kwa senior to Nderit that connect to the main highway (20 km)	New	Mwariki B	County	20 million
Installation of a street light at Royal Estate	New	Mwariki B	County	400,000
Installation of a street light Kwa senior	New	Mwariki B	County	400,000
Installation of a street light at Shamila	New	Mwariki B	County	400,000

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Installation of a street light at Ellyon	New	Muguga	County	400,000
Installation of a street light at Stable/Police camp Junction	New	Muguga	County	400,000
Installation of a street light at Madam Glitter Junction	New	Muguga	County	400,000
Repair of faulty street lights in the ward	New	All Locations	County	1 million
Upgrading of pipes from 2 inch to 3 inch from Mburu Gichua to Mzee Wanyama center (8 km)	New	Mwariki B	County	1.5 million
Installation of New lines of Pipes from Mirugi Borehole to stable along gamepark fence (6km)	New	Mwariki B	County	1.2 million
Installation of new lines of pipes from Mburu Gichua via cess to Wanyama Center (6km)	New	Mwariki B	County	1.2 million
Installation of new lines of pipes from Akibah to Gameline (2 km)	New	Mwariki B	County	400,000
Installation of new lines of pipes from Barry Estate to Rhino Gate secondary (1 km)	New	Mwariki B	County	200,000
Installation of new lines of pipes from Nyumba Kumi Club to St. Joseph`s Catholic church (800 meters)	New	Mwariki B	County	100,000
Installation of new lines of pipes from Wa Theuri Shop to farasi (800 meters)	New	Mwariki B	County	100,000
Installation of new lines of pipes from Akibah to babu (800 meters)	New	Mwariki B	County	100,000
Installation of new lines of pipes from God with Us to kware (1km)	New	Mwariki B	County	120,000
Equipping and solarization of Mburu Gichua Borehole	New	Mwariki B	County	3.5 Million
Bursary Enhancement	New	All Locations	County	5 Million

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Financial Year 2026/27				

Construction and equipping of one ECDE classroom at Lion Hill Primary School	New	Free Area	County	1.8 Million
Tarmacking of the Posho mill-St. Augustine Church Road	New	Free Area	County	6 Million
Replacement of existing street light poles from metallic to concrete poles (approximately 50 Poles)	New	Free Area	County	1 Million
Grading, Murraming and culvert installation of the Jokama to Borehole road (800 meters)	New	Muguga	County	800,000
Grading, Murraming and culvert installation of the Fountain Pipeline Road (1 km)	New	Muguga	County	1 Million
Installation of a streetlight along the Ebenezer to Muguga Garden road	New	Muguga	County	400,000
Installation of a streetlight along the Jawaki to Booster Road	New	Muguga	County	400,000
Piping and upgrading of current pipes at Baraka, Neema and Goshon Estates (10 Km)	New	Muguga	County	10 Million

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Acquisition of land for the construction of a secondary school (3 acres)	New	Muguga	NGCDF	48 Million
Construction of 4 classrooms for the secondary school	New	Muguga	NGCDF	7.2 Million
Construction of a 4 door Toilet at the secondary school	New	Muguga	NGCDF	950,000
Construction of an administration block at the secondary school	New	Muguga	NGCDF	3.5 Million
Construction of a Kitchen at the secondary school	New	Muguga	National	3.5 Million
Construction of a 4-door toilet at Rhino Primary school	New	Mwariki B	National	950,000
Construction of a 4-door toilet at Mburu Gichua Primary school	New	Mwariki B	National	950,000
Construction of a 4-door toilet at Nairobi Road Primary school	New	Mwariki B	National	950,000
Acquisition of land for the construction of a public primary and secondary school between Rhino Primary and Maria veronica	New	Mwariki B	National	
Construction and equipping of a social hall at Mzee wanyama	New	Mwariki B	County	9 Million
Purchase of car washing machines for distribution	New	Mwariki B	County	0.5 Million
Purchase of Dairy Goats for Distribution	New	Mwariki B	County	5 Million
Purchase of Rabbits for Distribution	New	Mwariki B	County	1 Million
Grading, Murraming, Culverting and Gravelling of Home Base to Imperial Road (3 Km)	New	Mwariki B	County	3 Million
Grading, Murraming, Culverting and Gravelling of Mirugi Kariuki Stage to Maria Veronica (2 Km)	New	Mwariki B	County	2 Million

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Grading, Murraming, Culverting and Gravelling of Mirugi Kariuki Stage to Maria Veronica (2 Km)	New	Mwariki B	County	2 Million
Grading, Murraming, Culverting and Gravelling of all feeder roads from kwa senior to Nderit that connect to the main highway (20 km)	New	Mwariki B	County	20 Million
Installation of a street light at Kwa Robert	New	Mwariki B	County	400,000
Installation of a street light at Park view	New	Mwariki B	County	400,000
Installation of a street light at Lay Sam	New	Mwariki B	County	400,000
Installation of a street light at Mama Ndarua Junction	New	Mwariki B	County	400,000
Installation of a street light at Baba Kinuthia Junction	New	Mwariki B	County	400,000
Installation of a street light at Dansu Center	New	Mwariki B	County	400,000
Construction of More reservoir tanks at Mirugi Borehole ground (60,000 litres)	New	Mwariki B	County	3 Million
Construction of a reservoir tank at Akibah Center	New	Mwariki B	County	2 million
Bursary Enhancement	New	All Locations	County	5 Million
Repair of faulty street lights in the ward	New	All Locations	County	1 Million

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Financial Year 2027/28				
Grading, Murraming and culvert installation of the Chief to Junction near st. Stephen`s Church (500 meters)	New	Muguga	County	500,000
Grading, Murraming and culvert installation of the Jokama to Samaritan Road (1 Km)	New	Muguga	County	1 Million
Grading, Murraming and culvert installation of the Highmask to Ruguru Road (300 meters)	New	Muguga	County	300,000
Installation of a streetlight along the Machine Sawmill Road	New	Muguga	County	400,000
Installation of a streetlight along the Baba Kadogo Lindkero Road	New	Muguga	County	400,000
Piping and upgrading of current pipes at Baraka, Neema, and Goshon Estates (10 Km)	New	Muguga	County	10 Million
Construction and equipping of a social hall at the chief's Camp	New	Muguga	County	6 million
Acquisition of land for the construction of a Primary school (3 acres)	New	Muguga	National	48 Million
Construction of 9 classrooms for the primary school	New	Muguga	National	14 Million
Construction of a 6 door Toilet at the primary school	New	Muguga	National	1.4 Million
Construction of an administration block at the primary school	New	Muguga	National	3.5 Million

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Construction of a Kitchen at the primary school	New	Muguga	National	3.5 Million
Construction of two toilets and a urinal at Barnabas center	New	Muguga	County	475,000
Construction of two toilets and a urinal at Machine center	New	Muguga	County	475,000
Construction of two toilets and a urinal at Mirugi Kariuki Primary School	New	Muguga	National	475,000
Construction of 4 additional Multi-storey classes at Rhino Primary School	New	Mwariki B	National	8 million
Construction of 4 additional Multi-storey classes at Mburu Gichua Primary School	New	Mwariki B	National	8 million
Construction of 4 additional Multi-storey classes at Nairobi Road Primary School	New	Mwariki B	National	8 million
Construction and equipping of a social hall at Mzee wanyama	New	Mwariki B	County	9 Million
Grading, Murraming, Culverting, and Graveling of all feeder roads from Kwa Senior to Nderit that connect to the main highway (20 km)	New	Mwariki B	County	20 Million
Installation of a street light at Libutu Area	New	Mwariki B	County	400,000
Installation of a street light at Mburu Gichua School Junction	New	Mwariki B	County	400,000
Installation of a street light at Nanwa Building Area	New	Mwariki B	County	400,000
Installation of a street light at Babu Junction	New	Mwariki B	County	400,000
Equipping of Mirugi Kariuki health center	New	Mwariki B	County	10 Million

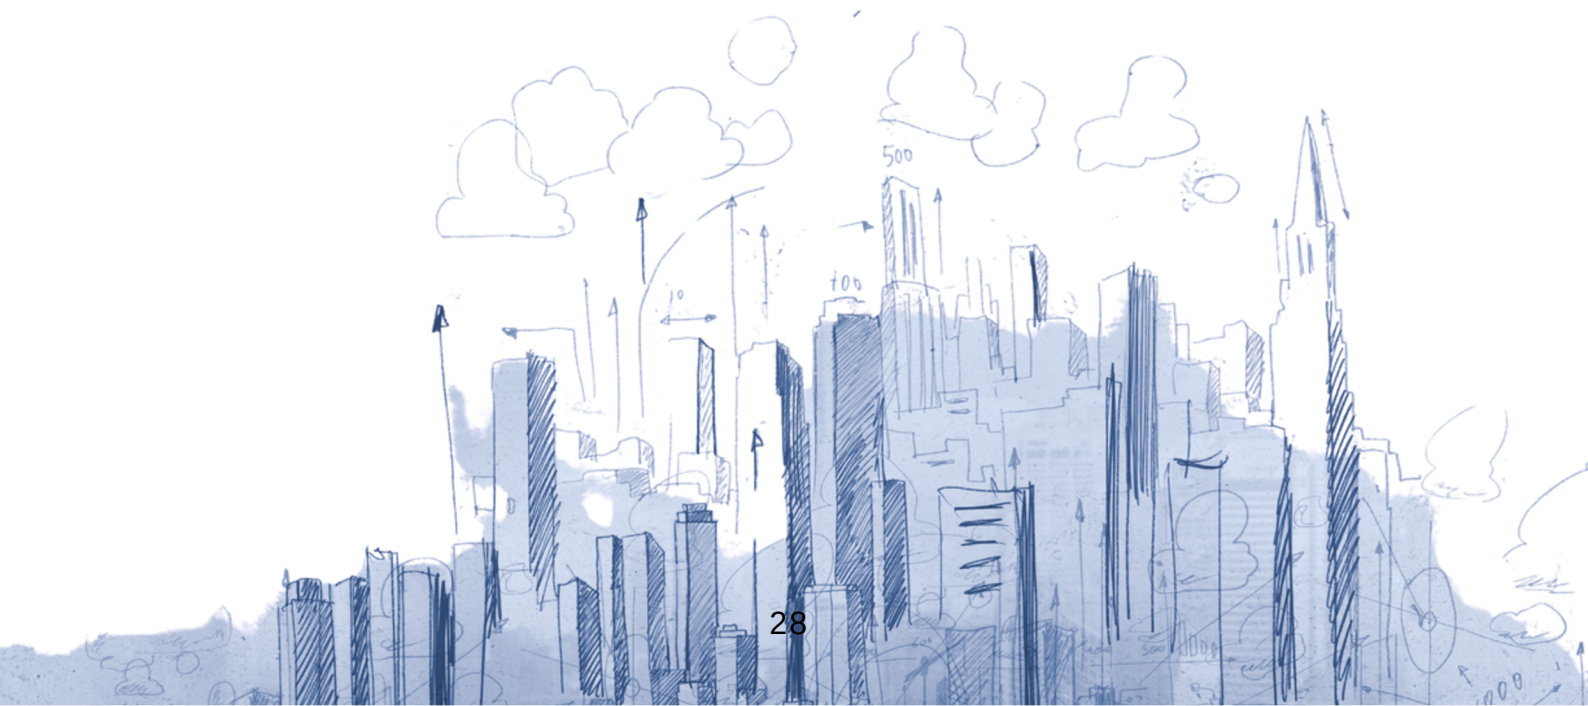

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Financial Year 2028/29				

Grading, Murraming and culvert installation of the Witas to Sawa Road (800 meters)	New	Muguga	County	800,000
Grading, Murraming and culvert installation of the Sidai to Road Road (300 meters)	New	Muguga	County	300,000
Installation of Tank at Chief's Camp	New	Muguga	County	2 Million
Construction and equipping of a social hall at the chief's Camp	New	Muguga	County	6 million
Installation of a streetlight along the Baba Kadogo Lindkero Road	New	Muguga	County	400,000
Construction and equipping of four ECDE Classrooms at the new Primary school site	New	Muguga	County	5.4 Million
Installation of a street light at Trizah Center	New	Mwariki B	County	400,000
Installation of a street light at Disciple Road	New	Mwariki B	County	400,000
Installation of a street light at Catholic Road	New	Mwariki B	County	400,000

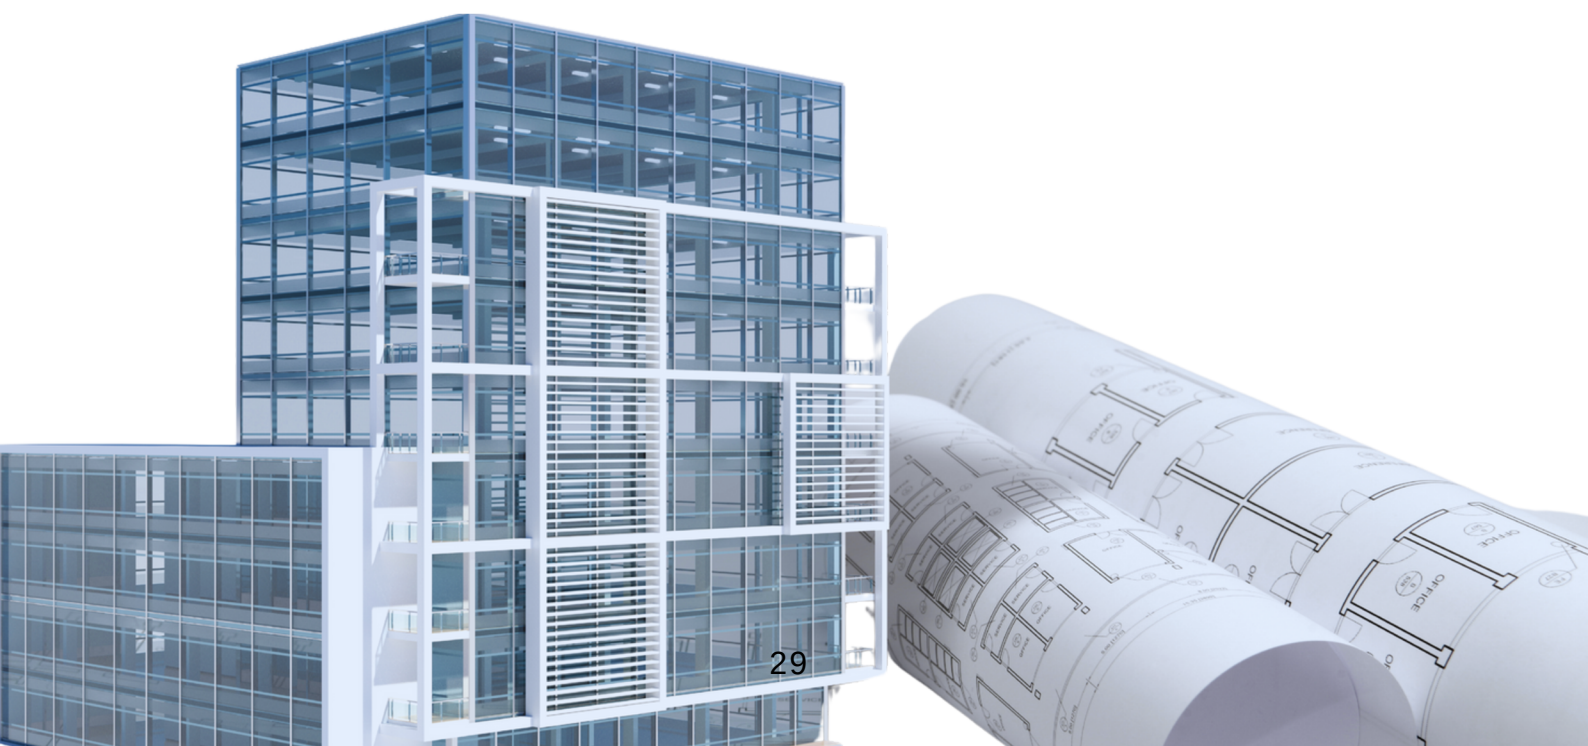

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Financial Year 2029/30				

Installation of a street light at Nyambati Junction	New	Mwariki B	County	400,000
Installation of a street light at Okoa Shop Area	New	Mwariki B	County	400,000
Installation of a street light at Pascal Junction	New	Mwariki B	County	400,000
Installation of a street light at Nyoro Kwale area	New	Mwariki B	County	400,000
Grading, Murraming, Culverting and Gravelling of Imperial to Nderit Road (4 Km)	New	Mwariki B	County	4 Million
Grading, Murraming, Culverting and Gravelling of Rhino Secondary to Stable (2 Km)	New	Mwariki B	County	2 Million
Bursary Enhancement	New	All Locations	County	5 Million
Repair of faulty street lights in the ward	New	All Locations	County	1 Million
Installation of a street light at Nyambati Junction	New	Mwariki B	County	400,000

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Bursary Enhancement	New	All Locations	County	5 Million
Repair of faulty street lights in the ward	New	All Locations	County	1 Million
Grading, Murraming and culvert installation of the Witas to Sawa Road (800 meters)	New	Muguga	County	800,000
Grading, Murraming and culvert installation of the Sidai to Road Road (300 meters)	New	Muguga	County	300,000
Equipping of the social hall at the chief's Camp	New	Muguga	County	3 million
Grading, Murraming, Culverting and Gravelling of all feeder roads from kwa senior to Nderit that connect to the main highway (20 km)	New	Mwariki B	County	20 Million
Installation of a street light at Kwa wa Mum	New	Mwariki B	County	400,000
Installation of a street light at Kwa Nyingiri	New	Mwariki B	County	400,000
Installation of a street light at Lebanon center	New	Mwariki B	County	400,000

Proposed Project	Project Type	Location	Source of Funds	Estimated Budget
Installation of a street light at Baba Mary Junction	New	Mwariki B	County	400,000
Installation of a street light at Kosovo Area	New	Mwariki B	County	400,000
Installation of a street light at God with Us Academy	New	Mwariki B	County	400,000
Installation of a street light at Chabuba Shop Road	New	Mwariki B	County	400,000
Installation of a street light at Kosovo Area	New	Mwariki B	County	400,000
